(C) The Supplemental Declaration may contain those complimentary additions and modifications of the Covenants and Restrictions contained in this Declaration necessary to reflect the different character, if any, of the added properties as are not inconsistent with the Plan of this Declaration. In no event, however, shall such supplement revoke, modify and add to the covenants established by this Declaration within the Property.

The definition does not include garden shrub or tree replacements or any other replacement or repair of any magnitude which does not materially change exterior colors or exterior appearances.

SECTION 5. The Basis of Approval. Approval of plans and specifications shall be based on, among other things, adequacy of site dimensions, structural design, conformity and harmony of external design and of location with neighboring structures and sites, relation of finished grades and elevations to neighboring sites, and conformity to both the specific and general intent of the protective covenants. The Architectural Control Committee shall establish certain architectural guidelines, which shall be approved by the Board (the "Architectural Guidelines"), and all plans and specifications must comply with Architectural Guidelines then in force and effect. However, the Architectural Control Committee may approve exceptions to the Architectural Guidelines by a unanimous vote. The current Architectural Guidelines shall be available at the office of the Association or the office of the Declarant.

SECTION 6. Majority Vote. A majority vote of the Architectural Control Committee is required for approval or disapproval of proposed improvements.
